REACH REGULATION (CE) 1907/2006
(Registration, Evaluation, Authorization and Restriction of Chemicals)

Pursuant to Article 33 of the REACH Regulation, we inform you that the components made of brass alloy used in the products supplied by us contain as alloy element lead in an amount above the limit of 0.1% by weight. Lead was included in the list of substances SVHC candidate for the authorization process, in the update published by the ECHA European Chemical Agency on June 27th 2018.

The lead has been inserted with the following information:

Substance	CAS/EC	List	Date of inclusion
Lead	CAS: 7439-92-1 EC: 231-100-4	SVHC	June 27 th 2018

Since lead is contained as an alloy element, no exposure is foreseen, so no further information is required regarding the safe use of the product.

The list is available at the following link: <https://echa.europa.eu/en/candidate-list-table>. Being a continuously updated list, we declare the constant monitoring of the possible inclusion of new substances and the timely information to our customers in case these substances are contained in the products supplied by us.
